WARSHIP CONVOY FOR THE OLYMPIC KEPT OUT OF SIGHT

But the Unseen Arm of the
 British Navy Was Felt
 Near by Wireless.

SCORES ON SHIPBOARD.

Wild Rumors Flew About the
 Smoke Room—Passengers
 Land Weary.

The White Star liner Olympic
 never once left her regular course
 from the time she left Liverpool until
 she arrived safe in port this morning.
 For the last two days she sailed with
 dimmed lights and all day yesterday
 she cut the seas to port at the rate of
 twenty-five knots an hour. She
 brought ninety-seven passengers in
 the first cabin, 250 in the second and
 363 in the third. The frantic scramble
 to get away from Europe had not be-
 gun when she sailed July 29.

"I cannot say that we were con-
 voyed by warships," Capt. Haddock
 said in telling of his trip. "Sure
 enough, I saw a cruiser off the
 Georges and another off Halifax.
 But (here the captain smiled covertly)
 I cannot say where they were
 now." His interviewers were per-
 fectly satisfied from his manner that
 the cruisers had accompanied the big
 ship to a point near New York. This
 would have brought them convenient
 to the Lusitania, so that they could
 escort her on her outward bound
 voyage. Passengers on the ship
 knew that though the British cruisers
 were not in sight they were in con-
 stant close communication with the
 Olympia by wireless.

"I did not see any German cruisers,"
 said Capt. Haddock. "It would not
 have worried us any if we had. There
 is nothing owned by Germany in these
 waters which could catch us."
 "My wireless operator tells me that
 not since the beginning of wireless
 service has he known as uncanny a
 silence on the seas as there has been
 since Sunday. The occasional mes-
 sages came out of the dark like ex-
 plorations."

The British freight steamer Etonian,
 which left New York yesterday for
 Antwerp, put back to-day when about
 sixty miles east of Sandy Hook. She
 received word last night of the de-
 claration of war between England and
 Germany and returned to port rather
 than risk capture.

The captain reported that about
 9.30 o'clock last night he sighted what
 he supposed was a war vessel. He
 could not make out the vessel's iden-
 tity in the darkness.

HOLDING BACK FREIGHT TO PREVENT CONGESTION IN NEW YORK YARDS.

Railroads have stopped the piling up
 of export freight in New York and other
 ports by refusing to issue through
 bills of lading to Europe. President A.
 H. Smith of the New York Central Rail-
 road said:

"There is an accumulation of freight
 on the steamship piers, but our yards
 and lines are not congested. We began
 precautionary measures last Saturday
 to hold back freight, and this stopping
 of through bills of lading for goods de-
 stined to countries at war will prevent
 piling up at New York."

North German Lloyd steamship offi-
 cials said their piers were piling up
 with freight, which they were holding
 subject to shippers' orders.

Strenuous efforts are being made to
 hold back the train loads of wheat that
 are en route from the West, as this
 crop is liable to cause the most costly
 and difficult blockade.

ENGLAND HOLDS SHIPS IN HOME PORTS IN FEAR OF GERMANS.

LIVERPOOL, Aug. 5.—By order of
 the Admiralty, the Allen liner Tunisian,
 due to sail for Canada to-day, has been
 held up. The reasons assigned in the
 presence of German cruisers in the At-
 lantic off the American coast, but it is
 believed the ship has been taken by the
 Government as a transport.

Cancellation of the sailing of the
 White Star liner Oceanic on Aug. 12
 was announced to-day.

GERMAN AMBASSADOR ARRIVES IN SWEDEN UNDER YANKEE FLAG.

STOCKHOLM, Aug. 5.—The German
 Ambassador to Russia with his staff ar-
 rived here yesterday from St. Peters-
 burg on a steamer flying the American
 flag.

They proceeded to Berlin.

**Some of the Low-Cost Furniture in
 The August Furniture Sale**
 (Originated by the Wanamaker Store)

This store is in too close touch with life not
 to know the needs of men and women. All
 its knowledge of furniture and markets and all
 its purchasing power have gone into the selec-
 tion of worthy low-cost furniture to sell during
 August at prices which cannot be met, for
 equal worthiness, by any other store.

Cheaply constructed furniture is being turned
 out in a thousand factories and sold in every city to
 trustful men and women who cannot judge the good-
 ness of furniture at first appearance.

You may pin your faith absolutely to the low-cost
 furniture in this August Sale. It is FURNITURE.
 And the savings at the August prices are real.

It is ever so much better to come and see the furniture yourself; to open the drawers of dresser and
 sideboard and see how smoothly they open and close; how neatly finished, inside as well as out; how dif-
 ferent from the general run of low-cost furniture. If you have not seen the stocks on these three great
 floors, there is a great surprise in store for you when you come.

Tomorrow you may see these among others—
